- **CMS & Platforms:** WordPress (Themes, Plugins, Optimization), Shopify (Basic)
- **Payment Gateways:** PayPal, Stripe
- **Servers & Deployment:** Linux, cPanel, Domain & DNS, SSL, Cron Jobs, Production Support
- **Tools & Version Control:** Git, GitHub, VS Code, WAMP, FileZilla

PROFESSIONAL EXPERIENCE

Software Developer
Brucode Technology Pvt. Ltd., Mohali | August 2023 – Present

- Developed, enhanced, and maintained multiple **production-level websites** including *Health4Silvers.com*, *Zealstrat.com*, *Rei1Lending.com*, and *Trailercraze.co.uk*.
- Implemented backend modules using **Laravel, PHP, CakePHP, and CodeIgniter**
- Designed and consumed **RESTful APIs** for web and application integrations
- Customized and optimized **WordPress websites**, including plugin integration, security fixes, and performance improvements
- Integrated **Stripe** (Health4Silvers.com) and **PayPal** (Valmiki App backend)
- Performed **Shopify development**: theme customization, product management, and app integration
- Developed and optimized **loan calculator features** with validations and business logic
- Optimized **MySQL queries** to improve application performance
- Deployed applications on **Linux servers using cPanel**, managing SSL, cron jobs, and environments
- Provided **production support** and resolved live system issues

Web Developer Intern
Brisk Logic Pvt. Ltd., Mohali | September 2022 – February 2023

- Assisted in backend development using **PHP and MySQL**
- Optimized database queries to improve application speed and efficiency
- Supported debugging, testing, and maintenance of existing applications

Full Stack Developer (Trainee)

VproTech Digital Pvt. Ltd., Mohali | January 2022 – June 2022

- Developed full-stack features using **Laravel and JavaScript**
- Integrated frontend UI with backend logic and APIs
- Learned MVC architecture, deployment processes, and production workflows

PROJECTS

- **Admin Dashboard System:** Role-based admin dashboard using Laravel and MySQL with analytics and access control
- **College Management Application:** Managed student records, attendance, examinations, and fees
- **Loan Calculator Module:** Built real-time loan calculators with optimized business logic

ADDITIONAL SKILLS

- Problem Solving & Debugging
- Code Optimization & Refactoring
- API Documentation
- Team Collaboration
- Client Requirement Analysis
- Time Management

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Chandigarh Group of Colleges | 2018 – 2022

CGPA: 7.03

CAREER HIGHLIGHTS

- 3+ years of experience in backend and full-stack development
- Worked on multiple **live international projects**
- Hands-on experience with **payment systems, servers, and production environments**
- Strong backend expertise with growing full-stack exposure
